TECHNICAL SKILLS

- Azure Machine Learning
- Azure Cognitive Services
- Azure DevOps
- Jenkins
- GitHub Actions
- Terraform
- Kubernetes
- Docker
- Ansible
- Python
- Bash
- Azure Monitor
- Splunk
- Grafana
- Networking Protocols
- VNets
- Private Endpoint
- Postman
- Containerization
- ARM Templates
- Monitoring
- Azure OpenAI

CERTIFICATES

Microsoft Certified: Azure Administrator Associate (AZ-104) (01/2025 - Present)

Microsoft Certified: Azure AI Fundamentals (AI-900) (10/2024 - Present)

Microsoft Certified: Azure Fundamentals (AZ-900) (06/2024 - Present)

WORK EXPERIENCE

Cloud Engineer LTIMindtree (Microsoft)

02/2024 - 07/2024

Calgary, Canada

Skills: Azure Machine Learning, Azure Cognitive Services, Azure DevOps, Terraform, ARM Templates, VNets, CI/CD Pipelines.

Achievements/Tasks

- Deployed and optimized Azure Machine Learning solutions, enabling scalable predictive analytics, which improved decision-making processes by 20%.
- Integrated Azure Cognitive Services for NLP and image recognition, enhancing application capabilities and improving user experience.
- Streamlined CI/CD processes by developing automated pipelines with Azure DevOps, reducing deployment time by 30%.
- Enhanced Cloud networking setups by configuring VNets, private endpoints, and network security groups, ensuring secure and reliable connectivity.

Assistant System Engineer Tata Consultancy Services

01/2021 - 08/2021

Bangalore, India

Skills: Azure DevOps, Azure Machine Learning, Azure Cognitive Services, Azure Monitor, Python, Azure CLI, CI/CD Pipelines.

Achievements/Tasks

- Built CI/CD pipelines using Azure DevOps, automating deployment processes and reducing errors by 15%.
- Utilized Azure Machine Learning to create basic predictive models, improving dataset management through Output Datasets.
- Integrated Azure Cognitive Services Translator to support multilingual applications, enhancing accessibility.
- Monitored and analyzed network resources using Azure Monitor Network Insights, ensuring infrastructure stability and reducing downtime by 10%.
- Automated routine tasks with Azure CLI and Python, improving operational efficiency and saving 20 hours per week.

WORK EXPERIENCE

Technical Sales Supervisor

Staples Canada

01/2025 - Present

Calgary, Canada

Skills: Client Solutions, Cloud Technologies, Team Collaboration, Technical Training, Customer Relationship Management.

Achievements/Tasks

- Recommended solutions to clients, aligning with their business needs and increasing sales by 15%.
- Collaborated with cross-functional teams to implement technology-driven solutions, enhancing customer satisfaction and streamlining operations.
- Trained team members on advanced technical tools and services, fostering a culture of innovation and technical proficiency.
- Optimized service offerings, leading to higher client retention and a 10% boost in revenue.

Customer Care Representative

Rogers

09/2023 - 02/2024

Toronto, Canada

Skills: Technical Support, Troubleshooting, Customer Service, Issue Escalation, Device Configuration.

Achievements/Tasks

- Resolved customer issues related to connectivity and billing, improving service satisfaction and reducing repeat complaints by 10%.
- Assisted customers in device configuration and troubleshooting, ensuring seamless service integration and reducing setup time.
- Escalated complex issues to higher support levels, ensuring timely resolution and maintaining SLA compliance.

Fundraiser

Fundraising Direct

04/2022 - 06/2022

Montreal, Canada

Skills: Data Analysis, Power BI, Reporting, Stakeholder Communication, Resource Allocation.

Achievements/Tasks

- Conducted data analysis on donor contributions to identify trends, increasing campaign efficiency and donor retention by 25%.
- Created dashboards in Power BI for fund tracking and reporting, providing stakeholders with actionable insights.
- Assisted in resource allocation strategies, improving campaign effectiveness by 15%.

EDUCATION

Masters in Computer and Electrical Engineering

Concordia University

09/2021 - 06/2023

Montreal Canada

PROJECTS

DevSecOps Pipeline | Deploy Netflix Clone on Kubernetes (07/2024 - 08/2024)

- Designed and deployed a secure Netflix clone application on Kubernetes using Jenkins pipelines, Argo CD, and AWS IAM roles, adhering to DevSecOps best practices.

Azure Machine Learning Pipeline (01/2024 - 04/2024)

- Developed and deployed a scalable Azure-based machine learning pipeline using Kubernetes for real-time data processing and predictive analytics with high accuracy.
